

Restoration Work in Progress

A comprehensive multi-phase project

Crews have completed tuckpointing and masonry repairs for the winter and will return in the spring to complete the roof sealing. During the winter months, crews removed old attic insulation that had been retaining moisture, allowing the ceiling to continue drying fully.

Interior stone cleaning in the ambulatory outer aisles of the church has been completed. The upper clerestory-level stone cleaning will take place once interior scaffolding is installed.

Basilica staff and volunteers are preparing to relocate liturgies to Teresa of Calcutta Hall following Holy Week and Easter, beginning April 6.

As we move through the full phases of restoration, your patience and understanding are greatly appreciated. This is a generational project which we are most grateful to undertake.
